WHO WE ARE

Easy Storage Solutions is an industry leader in Self-Storage Management Software. After consistently hearing that many facilities didn't have time to manage the business and answer every phone call, but also couldn't afford to hire a full time manager, we decided to create a service that would help manage their facility at an affordable price.

We are a remote management service customized to your facility's needs. All of our employees are based here in the USA and trained in the Storage Industry.

**BASED IN
ST. GEORGE, UT**

"Easy Storage Solutions has been a life saver! By using this service, I have been able to cut my delinquent accounts by 50% and have freed up my time to be more productive. This service has been professional and has always kept me in the loop if tenants have any issues. I have been able to automate most processes for my facility and do not need a full time employee at the site."

-Josh, Cape Coral, FL

MANAGEMENT SOFTWARE INTEGRATION

We are much more than just a call center. Our service fully integrates with the Easy Storage Solutions Management Software allowing us access to your tenant and facility information. Our ability to process rentals, take payments, and help assist tenants with their account is what sets us apart.

PRICING

Our pricing is customized for your facility based on what you need. We charge on a tiered scale which is determined by the size of your facility, your overall volume, and your workload. You can decide which features you need and what you don't. We are consistently 2-4 times less expensive than other answering services in the industry, and only a fraction of the cost of an employee. We promise we can find a solution that provides the value you are looking for and works within your budget.

FOOD FOR THOUGHT

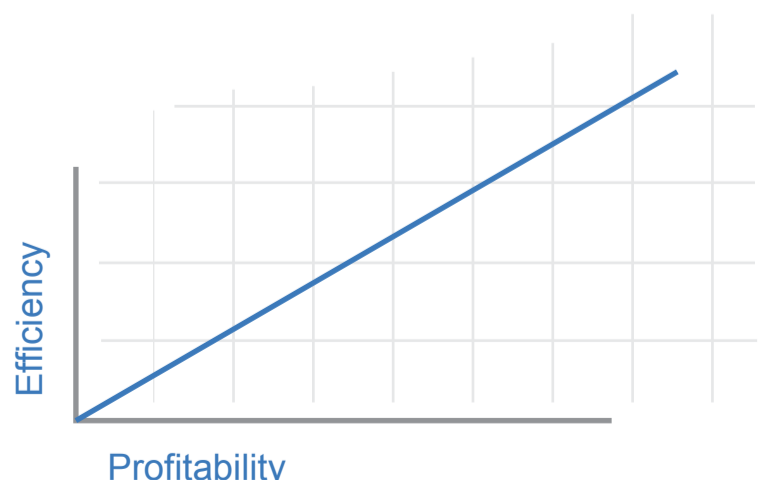

Storage Industry Data shows **40%** of phone calls to facilities are **missed!** These missed calls cost owners money in lost rentals and payments.

WHAT WE CAN DO

- Rentals
- Tenant Insurance
- Local Phone Numbers
- Message Forwarding
- Issue Gate Codes
- Move Outs
- Payments
- Tenant Account Updates
- Past Due Courtesy Calls
- Sparefoot Leads
- Full-Time Service
- Overflow/ Backup

"I am so pleased with the level of professional service I received from Easy Storage Solutions. As a small business owner I didn't want to spend all of my time at the office answering phone calls that were from solicitors and especially not leads to potential customers. They simplified my life by not missing potential business for my self-storage business by leasing done over the phone and accepting payments from my tenants by credit card. I LOVE Easy Storage Solutions and life as a self-storage owner only got better for me and my family." - Amy, Bastrop, TX
